This course will allow the students, taking into account their experience level, to:

- Learn and **assimilate basic theoretical concepts of music.**
- **Rehearse with their instrument under the guidance of the School's Professors**, who work training some of the top-level students worldwide; thus strengthening their musical abilities (or having a first approach to their instrument, if they have no experience at all).
- Take part, with the rest of the Summer Camp students, in the **Camp's Choir.**
- Learn about history of music and culture, visit museums, attend concerts and, at the end of the course, have a **much richer perspective of music and its connection with culture.**

### >> LANGUAGES

**The course will be given in English.** There will be specific language lessons (Spanish for foreigners and English for Spanish students) and they will communicate with the instructors in different languages, which will allow the students an intensive immersion in foreign languages during those 15 days.

### >> APTITUDES DEVELOPMENT

During the Summer Camp the students will be taught the **School values**, such as: perseverance, dedication, team work, high degrees of responsibility, and the promotion of the dialogue among nations through music and art.
